Re: Municipal Representative Announcement

Dear Valued Customer:

In order to serve our municipal water and waste-water customers more effectively, I am proud to announce the appointment of **Southwest Valve and Equipment, Inc.** as a new municipal market representative for the Rosemount Measurement and Flow divisions of Emerson Process Management.

Southwest Valve and Equipment will be providing sales and service support for water and waste-water customers in southern California for all counties south of and including San Luis Obispo, Fresno, and Inyo.

They will be responsible for the Rosemount Measurement-pressure, temperature, level and wireless products as well as the Rosemount Flow products that include magnetic flow-meters, vortex meters and Micro Motion mass flow meters.

They can be reached in the Tustin office at 714-832-1090 or in the Fresno office at 559-261-2703 or on email at www.southwestvalve.com.

The addition of Southwest Valve and Equipment is a commitment by Emerson Process Management to increase the presence and support of Rosemount products and solutions in this very important market.

If you have any question please call or email us.

Thank you for your business.

Nick Bibich

Municipal Regional Manager
